Can culture & nature flourish together?

I am an all-round landscape architect and horticulturist, with over 10 years of design and execution of nature-driven and water-sensitive development projects. I am driven in creating responsible and regenerative human environments that are imaginative, in-tune and interconnected with nature's processes.

_ EXPERIENCE

Stable Unstable Independent Landscape Architect 2019 – 2026 Singapore / Malaysia

Design practice intuitively exploring tropical ecological landscapes, nature-based systems and material culture.
